

Mercedes-Benz

Cut your service
and repair costs.

Try our standby service.

Sometimes we all have unexpected slow periods in our business due to:

- Jobs or contracts being delayed
- Customers hitting problems and jobs being cancelled or delayed
- Customers forgetting about their appointments

We all have the same problems as you so we have tried to spread a potential problem for both of us by turning it into an advantage for yourself.

We now offer a standby booking service.

If you provide us with your details, and we have a cancellation, we will call you. If you can get your vehicle to us on the day we request, we will give you a discount off our labour and oil charges.

We will provide you with a number of opportunities for the work to be carried out. There is no pressure to take the first date offered.

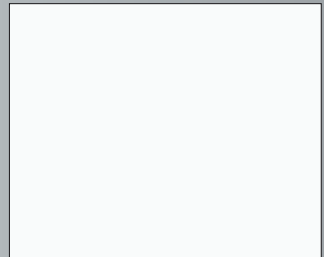

This leaflet entitles you to a 20% off labour and oil charges if the work is undertaken during a standby booking.

Ask or call your service advisor for more information.
